**About us:**

# The Henley difference

Henley Business School is a leading international business school with campuses globally in:

- UK
- Africa
- Asia
- Europe

Our core purpose is designing **learning and development opportunities that advance people, organisations and shared value.**

For **over 80 years**, we've been incubating business leaders and **impactful entrepreneurs**. And because we understand how adults learn, we are known for building **leaders who are curious and emotionally and intellectually agile.**

**Henley Africa is the 1<sup>st</sup> quadruple-accredited, international business school in Africa.**

# NextGen Project Management

Master the essential tools of project management with AI-powered insights and practical case studies to enhance your learning.

How do you manage a project with confidence when conditions shift, data flows fast, and the stakes are high?

This hands-on short course offers a practical toolkit to initiate, plan, execute and deliver successful projects, from scoping to go-live.

You'll explore real business cases, sharpen your time and stakeholder management skills, and learn how to use AI tools to optimise cost, decision-making, and reporting.

Whether you're new to project management or stepping into more complex delivery roles, this course builds capability and confidence you can apply immediately.

## Is this course for you?

This course is designed for:

- Functional and project team leaders
- Entrepreneurs managing growing operations
- New or aspiring project managers
- Anyone responsible for driving delivery across teams or timelines

## What will you gain?

### Project planning confidence

Define goals, scope, timelines and budgets with clarity and structure

### Execution skills

Deliver results with discipline, delegation and effective progress tracking

### Stakeholder management

Map interests, manage expectations and build alignment across teams

### AI integration

Discover how AI tools can support smarter forecasting, costing and reporting

### Risk and change management

Navigate shifts and surprises with composure and adaptability

### Real-world readiness

Test your learning in a fast-paced simulation where the brief – and conditions – evolve in real time

## Learning modules

### Module 1

#### Foundations and Planning

- What makes a project versus a task?
- Time, cost and resource management
- Defining the project and its stakeholders
- Business case, budget, and team dynamics
- Case studies and planning exercises

### Module 2

#### Execution, Delivery and AI Integration

- Time management, discipline and team leadership
- Communicating at multiple levels
- Go-live and post-implementation reviews
- AI tools: from automation to predictive analytics
- Ethics, risk, and people in AI-enhanced projects
- Bringing it all together: case study execution

### Module 3

#### Simulation and Assessment

- Full project simulation: adaptive leadership under pressure
- Team-based challenge with evolving parameters
- Presentation, feedback and personal reflection

## Certification

Henley Business School Certificate of Completion

## Faculty

Lorenzo Messina

## Delivery Method

Face-to-face or virtual

## Duration

3 days

## Location

Henley Business School  
Johannesburg Campus,  
1 Witkoppen Road,  
Paulshof, 2191
