

# Embracing technological change to optimise patient care and outcomes

## About the programme

This short course has been designed with the busy **healthcare professional** in mind. Delegates are able to learn online after business hours while engaging with a community of like minded peers who want to share ideas and are looking to leverage off technological advances to become more patient centered.

This interactive 7 week program takes place every Wednesday evening and consists of working through an hour of online self-study materials in your own time followed by a 2 hour live online webinar per week.

### Who can attend this programme?

Healthcare professionals from all disciplines are welcome to attend this programme. **Support staff** such as **administrators** and **practice managers** will also find the programme of interest and applicable to their needs. **Individuals** working in other industries with a special interest in healthcare will also find this programme beneficial.
